

Administrative Professionals Day is April 27, 2005

To All Our Administrative Professionals:

I wish to thank all of you for the hard work and dedication in fulfilling the mission of the Department throughout the year.

You are the people whose administrative expertise, trouble-shooting abilities and organizational skills are essential to the everyday office routine, the very foundation of the Department.

Today's administrative professional is faced with many more challenges than those of days past, including everything from staying on top of computer technology to juggling responsibilities with skill, patience and stamina!

**I thank you for doing the impossible every day.
We're lucky to have you as part of our team!**

Jackie Crawford, Director
